

I am willing to pay to enjoy the radio in my car. I had switched to only listening to CD's as the local stations in my area are all owned by the same two corporations and play the same songs and loud, annoying commercials. The DJ's were rude and using foul and sexual explicit language that I did not want my child to listen to. I live in a rural community and they never gave traffic reports to my area. I really enjoy being able to listen to several different news reports so I get more than one view on the subject. If you are going to do anything, do not allow one company to own so many stations in one area. There is no competition and there are all equally as bad. PLEASE, PLEASE DO NOT TAKE MY XM RADIO AWAY.
